### BEST PRACTICES OF INSTITUTION

#### 1. LECTURE SERIES

- i) **Title of the Practice :** Lecture Series
- ii) **Goal:** In the present era of globalisation, the teachers involved in teaching-learning in Higher Education Institutions must be well equipped with latest knowledge and advancements in respective areas of teaching. The knowledge acquired by a teacher must be circulated to others. Multidisciplinary approach of teaching must be adopted. The main aim of our institution is to empower teachers with communication skills so as to circulate knowledge on large scale.
- iii) **The context:** We analysed that all the faculty of our institution must be the best at communication. The communication skills of a teacher must be strengthened. Initially, all the faculty were not ready to participate in this activity.
- iv) **The Practice:** We have been implementing this practice for last seven years. Each faculty has to present his/her research paper/article in the lecture series. One lecture is organized on each Wednesday. All faculty and students as well attend the lecture. The research paper/article is to be elaborated and discussed in the lecture. We also organize question-answer session in the lecture. The research paper presented in the lecture series is published in the college journal. This practice increased interest of teacher in accumulating more knowledge by referring books, journals, periodicals, e-journals etc. This helps to broaden multidisciplinary approach of study.
- v) **Evidence of Success:** As the entire faculty started participating in the lecture series, we observed that their confidence level was increased. Moreover, the knowledge of different subjects was also increased. Initially, around 10% faculty of our institution were poor in communication skills. Our target was to assist these people to improve up to the mark within 2 to 3 academic years. After a consistent effort of seven years, presently, we have found that there is remarkable improvement. In academic year 2014-2015, 09 teachers delivered lectures in this series.
- vi) **Problems encountered and Resources Required:** The challenges we faced initially were very interesting. When the lectures were to be delivered, many were there who deliberately tried to remain absent on the day. In most of the series, a few selected faculty had to deliver lectures frequently. The participants sometimes postponed their turn. Some would come forth for the presentation with quite poor preparation. But we constantly inspired each other. We appreciated all performances. The Monitoring Committee suggested corrections in performances. For each lecture series, the Monitoring Committee provided a theme.
